

# CRAFTING CLUB NEWS UPDATE

Please remember that the Crafting Club is **FREE** to join for all residents and we will supply you with materials needed to carry out your crafting work. All we ask in return is that you supply us with photographs of your completed work for us to show others what can be achieved.

If you feel that you are too proud to ask for help and materials, please remember that we are not a charity and any items you receive from us have been either donated by fellow residents or

South Essex Homes contractors to help residents through the boredom and isolation caused by lockdowns.

Any items you make can be either given away to family, friends or other residents or can be donated to worthwhile causes.

We have been made aware of [Sue Lincoln](#) from [Trafford House](#) who knits toys for nursery schools and hospitals while also making "Goodie Bags".

We could not offer funding to purchase items to go into the "Goodie Bags" but would happily supply them to you in flat form with some glue enabling you to make them yourselves and fill them with your crafting items and arrange for them to be taken to various locations where they are needed and would be appreciated.

So please remember you **WOULD NOT BE ASKING FOR CHARITY**, you would in fact be helping out those that might be in need of help from worthwhile causes' as well as helping yourself to cope with the current lockdown situation at the same time.

Maybe like [Sue Lincoln](#), mentioned above, you would like to do something as a thank you for all the Emergency workers at the various hospitals, clinics, Doctors Surgeries and other agencies that have been keeping us all safe and well during the Covid outbreak.

## STAY SAFE & HAPPY CRAFTING.

LET'S  
GET  
CRAFTING
